Dear Parent and Carers,

As you are all aware, reading is such an important skill that is developed in school as well as at home. Reading is the foundation of everything we do and plays an essential role in everyone's life. It provides children with an amazing imagination as well as excellent knowledge. One of the school's fundraising foci for this year is raising money to buy some new books to renew and replenish books within both the school library and the classrooms.

For the last two years, under very difficult circumstances, our wonderful PTA have tried to raise as much money as possible using different ideas. They have done a fantastic job but not raised the amount that we are usually able to.

Our fantastic parents have also supported in every way possible, but this has been limited. Things are still not back to normal with no Christmas Fayre and limited events. We therefore hoped to give parents another way to provide their support to the school and help us to renew our books.

We have created an Amazon Wishlist of books which all staff have worked on. The Wishlist allows you to purchase the school a book, send to school directly (if you choose the school's address) and in return, the school will label the book with your child's name so that everyone who reads the book can see who very kindly donated.

If you would like to donate, please use the following link <https://amzn.eu/fQGfraL>

Thank you as always for your continued support.

Best regards

Alison Oxtoby
Head Teacher
